OBJECTIVE

The Conference explores emerging trends and novel ideas in the field of Communication, Computation & Security. The Conference covers a wide range of areas about the latest trends and highlights the influence of Communication, Computation & Security in view with the industries. This also brings together leading scientists and researchers from academia and industry.

THE HOST

The Bharath Niketan Engineering College is located in Aundipatty, Theni District, in the low range of beautiful Kodai hills. The College was established in the year 1998 by Shri. S.Mohan who were pioneers in the field of Industrials, who took up the cause for the noble mission of serving the rural community and imparting value added education. The Engineering college was started in this rural area because of the founders' strong desire for inculcating technical education for the poor and needy of the rural backward class. With a view to empowering the rural youth, the college stands as an epitome of service and quality education. The college offers six undergraduate courses namely ECE, CSE, IT, EEE, Mechanical & Civil and three post graduate likely communication system, industrial safety engineering and software engineering. The institution has good academic and extra curricular facilities with well qualified faculty. The College has sophisticated laboratories, a well furnished library and good computing facilities.

ABOUT THE DEPARTMENT

The Department of Electronics and Communication Engineering was started in the year 1998. The department has dedicated well equipped labs such as Electronics Lab, Microprocessor and Micro controllers Lab, Linear Integrated Circuits and Digital Lab, Optical & Microwave Lab, Digital Communication Lab, Networks & DSP Lab, VLSI & Simulation Lab and Embedded Systems Lab and communication systems lab SPECTRA-The Association of the Electronics and Communication Engineering Department is instrumental in conducting various technical events like Guest Lectures, Symposium, Workshop, Quiz and Project exhibitions.

CALL FOR PAPERS

The Conference is aimed with the discussion of Papers that are unpublished original research work covering the topics including, but are not limited to the following areas

- VLSI & Image Processing
- DSP
- Network Security
- Artificial Intelligence
- Embedded Systems & Robotics
- Multimedia Communication
- Mobile Computing
- Soft Computing
- Data Mining
- Remote Sensing
- Nano Technology
- Other Related Areas

All accepted paper will be Published in ANNAXURE-II JOURNAL Online ISSN 0973-9769 (IJAER)

IMPORTANT DATES

Submission of abstract : 10th February, 2018
Submission of papers : 17th February, 2018
